

PAMITEX

since 1990

B2B Product Catalogue

Condoms and personal lubricant for distributors, wholesalers and professional B2B channels. European supply, CE-marked Class IIb medical devices.

2026 Edition

European B2B condom supply · PAMITEX brand since 1990

PAMITEX GROUP Kft. is a European B2B partner for condom supply, professional packs and selected distribution opportunities. PAMITEX operates as an importer economic operator and supports distributors, wholesalers and professional B2B channels across selected markets.

PAMITEX

The PAMITEX brand has been present in the condom market since 1990. Standard B2B supply and professional packs for distributors, wholesalers and professional operators. Brand presence since 1990.

SILHOUETTE

SILHOUETTE brand, present since 1960. Flavoured condom line (e.g. Strawberry) within the PAMITEX Group portfolio. Brand presence since 1960.

SUPER SILHOUETTE

SUPER SILHOUETTE line within the PAMITEX Group portfolio (e.g. Tutti Frutti XL).

ENSITY

Selected B2B supply line in the PAMITEX Group portfolio: a ready-to-distribute exclusive brand.

QUALITY

Built on the standards that matter

Compliance here is not a slogan: it is the specification we supply against. Every PAMITEX condom is a CE-marked Class IIb medical device, electronically tested and traceable from the sealed foil to the shipping carton.

EN ISO 4074

The harmonised standard for natural rubber latex condoms: dimensions, bursting volume and pressure, freedom from holes.

MDR (EU) 2017/745

CE-marked Class IIb medical devices, made under a certified quality management system.

CE 0123

The CE marking with the Notified Body number, printed on every professional pack.

Electronically tested

Every single condom is electronically tested for pinholes before it is sealed in its foil.

PACKAGING

Three levels, one traceable chain

01

The sealed unit

One sealed condom, in an aluminium barrier foil against light, air and humidity.

1 condom

02

The professional box

One box holds 144 condoms: the unit you order, with full labelling and batch traceability.

144 per box

03

The master carton

Boxes grouped into a standardised master carton for predictable palletising and transport.

On request

The PAMITEX range for distributors, wholesalers and professional operators: natural rubber latex condoms and the water-based personal lubricant, all CE 0123 Class IIb.

Ready-made exclusive brand for distributors and importers, pack sizes configured for the market.

Size	53 mm x 200 mm
Material	Natural rubber latex
Finish	Smooth · Unscented
Pack	Box of 144
Marking	CE 0123 · Class IIb
EAN	Assigned at order
Ref.	EWX

Private label and exclusive brands

Take a PAMITEX product to market under your own brand, or take on a brand that already exists.

Private label

Your brand, your artwork, on a CE-marked Class IIb medical device already in production. You define the pack configuration (loose foils, or retail multipacks of 3, 6, 12 or 24) and the design; PAMITEX supplies the certified product and the regulatory structure.

Ready-to-distribute exclusive brands

A fully developed brand (name, design, packaging and regulatory structure already in place) supplied to a single distributor for its market. ENSITY Love's Dream reaches the market far sooner than a private label build.

What we supply

A product that is already certified: CE 0123 marking and MDR structure already in place, professional packs of 144 or the retail multipacks you configure, master-carton logistics and batch-level traceability. You bring the brand and the channel.

Request a quote

Prices, minimum order quantities and lead times are defined with qualified B2B partners.

Compliance at a glance

All condoms are CE 0123, **Class IIb** medical devices under MDR (EU) 2017/745, device group U110101, assessed against EN ISO 4074 and electronically tested unit by unit. The personal lubricant is a CE 0123 Class IIb device, device group M9002. PAMITEX GROUP Kft. acts as the EU importer economic operator (EUDAMED SRN HU-IM-000038885), maintains batch-level traceability and handles post-market feedback, forwarding relevant information through the regulatory chain.

The condoms in this catalogue are made of natural rubber latex, which may cause allergic reactions including anaphylactic shock in people who are allergic to latex. They must not be used by people with a latex allergy. Consult a doctor or a pharmacist about the risk of an allergic reaction before use, and seek medical advice if a reaction occurs.
